are maintained on regular classes signed by the subject incharge daily and by the Principal weekly. Individual subject log books are maintained by each subject in charge along with the hour attendance. Attendances are maintained properly. Parents are informed of their ward's cumulative attendance every month. Every department will update their planned programs for every week along with function details, budget, and chief guest. Yearly activities will be planned along with academic calendar. Each program will be posted with special incharges who will plan, execute and evaluate the activities. After every program a review meeting will be conducted and the feedback from incharge, coordinator, and students will be documented. The class incharge will monitor the number of classes taken. The class incharge also holds the information of students personal details, medical history, contact of parents. The academic coordinator monitors the sessional assessment marks, regularity of classes and the teaching quality of the faculties. Monthly review meeting is conducted on academic improvements and the discussion is documented.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution has evolved a structured and effective implementation of the curriculum which is executed by the following measures. IQAC Meeting A meeting involving the IQAC members is conducted to discuss the academic matters regarding the opening date of new academic year, academic calendar, lesson plan, orientation programme, course file, academic file and action plan before the start of the academic year. The progress of the curriculum is periodically reviewed and analysed by the IQAC and they also conduct an academic audit annually. Academic calendar The academic calendar is a document prepared before the start of a new academic year and is circulated within the staffs and the students immediately before the commencement of classes. It provides all the required date wise information about the institution throughout the desired year. It gives the details about the programmes, holidays and examination schedules. Lesson plan Every faculty prepares the lesson plan in the prescribed format which contains the information of the topics which has to be taken along with the information regarding those topics which have been taken apart from the structured plan throughout the semester before the commencement of the classes in the beginning of the academic year. The relevant head of the

department monitor and review the lesson plan once a week while the Principal reviews the lesson plan once a month. The formulated lesson plan has the following contents: 1. Learning objectives 2. Methods of teaching 3. Summarization of the topic 4. Assessment method by conducting quizzes, group presentations and writing assignments. Orientation programme The orientation programme which is conducted on the very first day of the academic year is done to help the students for the preparation of a successful career with a clear vision about what lies ahead and to begin their journey with a wealth of knowledge and zeal. The video presentation displayed during the orientation programme contains information such as the year of establishment of the college, the mission and vision of the college, the infrastructure, the facilities available in the college and the rules and regulations of the college. Course file A course file is maintained for every individual course which consists of the following: 1. Course syllabus 2. Course material 3. Sessional examination question papers 4. Model examination question papers 5. University question papers 6. University results and analysis Academic file An academic file is maintained which consists of the following: 1. Individual timetable 2. Approved teaching plan 3. Students attendance record 4. Continuous internal evaluation record Academic plan The heads of the departments periodically monitor the effective implementation of the curriculum and is further reviewed by the principal. With reference to the academic calendar, three sessional examinations and two model examinations are conducted every academic year. A clear and regular communication is made with the parents regarding the student's progress through in person/online mode. Regular sessions of seminars, workshops and guest lectures on the subjects associated with the curriculum are conducted.

Feedback is obtained 2. Alumni 3. Faculty 4. anagement, the following st unfavorable comments ed to be handles at the | | | | | | |

the department faculty and the students. 4. To make sure that the institution runs transparently by using the input gathered from different stakeholders. The minutes of meeting occurred earlier are presented and the suggestions for enhancements are deliberated, and the actions to guarantee the smooth operation of the administration are determined. The academic council ensures to analyze the academic performance at both student levels and the faculty levels periodically based upon the following: 1. The performance of the designated duties of both the students and the faculties after every sessional examination. 2. The utilization of the infrastructure of the institution. 3. The need to enhance quality of the institutional performance. Every year, a parents teachers meeting (PTM) is conducted to establish a communication within the parents and the teachers to discuss about the students' progress and to obtain feedback regarding the efficient performance of the students. Feedback is obtained from every outgoing batch regarding the design of the syllabus, faculty sufficiency and the infrastructure of the institution. An alumni meet is conducted every year in which valuable feedbacks and suggestions are obtained from the alumni students. The feedback data which is obtained from the alumni meet is reviewed in the academic council meeting for analyzation of the information and to make the necessary changes. Feedback and suggestions are obtained when any alumni make a visit to the college. Feedback is provided by various alumni who have moved to work or are pursuing higher education in any other institution about how this institution has aided them for their better performance at their respective places. Additionally, the alumni also work as an inspiration for the students and also share their experience and tips which helps the students to groom themselves in to a better professional. A feedback form is also made available as google form in our college website which is used to obtain feedback from the alumni. The feedback obtained from the students, faculties, employers, parents and the alumni are reviewed and analyzed by the academic council in various aspects to recognize the problem and to discuss the measures to correct the root cause and to incorporate the suggestions in the curriculum.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.1.1 – Demand Ratio during the year

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

We Introduce a variety of assessment methods beyond traditional exams, such as projects, presentations, case studies, group assignments, and practical assessments. This allows for a more comprehensive evaluation of students skills and knowledge. we Increased the emphasis on formative assessments, which are assessments conducted during the learning process to provide feedback for improvement. This can include quizzes, class discussions, and regular feedback sessions. We Incorporate technology for assessment purposes, such as online quizzes, e-poster and papers, electronic submission of assignments. This can make the assessment process more efficient and align with the use of technology in modern education. we concentrate towards a competency-based assessment model, focusing on the development of specific skills and competencies relevant to the field of study. This approach ensures that assessments are aligned with learning outcomes. Establish a system for providing timely and constructive feedback to students. Regular feedback enables students to understand their strengths and areas for improvement, facilitating continuous learning. we Provide training and professional development opportunities for educators to enhance their assessment practices. This may include workshops on effective feedback, assessment design, and the use of technology in assessments. Implement mechanisms for monitoring the quality of assessments and ensuring consistency in evaluation. This may involve periodic reviews, internal audits, and external assessments. encouraging students to apply theoretical knowledge to practical scenarios relevant to their future careers Provide flexibility in assessment timing to accommodate diverse learning styles and the needs of individual students. This may involve staggered deadlines or alternative assessment schedules. We have Implemented these reforms requires collaboration among administrators, faculty, and students. By fostering a culture of continuous improvement and innovation, our college created a robust Continuous Internal Evaluation system that aligns with the goals of providing meaningful and equitable assessments.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

We Start the planning process well in advance, preferably before the start of the academic year. Consider input from faculty, administrative staff, and relevant academic committees. We clearly define and divide the academic year

into terms or semesters. Establish the start and end dates for each term, taking into account any holidays or break. We determine the dates for major examinations, including sessional exams, model exams and final exams. Ensure that the exam schedule allows sufficient time for preparation, review, and grading. we collaborate with faculty members to identify specific dates for class tests, quizzes, and other formative assessments. This coordination helps avoid conflicts and ensures a balanced workload for students. we take into account public holidays, religious observances, and any other breaks in the Nandha academic calendar. Adjust the exam schedule accordingly to accommodate these non-instructional days. Communicate the finalized academic calendar to all stakeholders, including students, faculty, and administrative staff. Then publish Nandha academic calendar on the Nandha institutions website and distribute hard copies if necessary. we coordinate with facilities management to schedule examination venues. Ensure that there are adequate and appropriate spaces available for the number of students taking each exam. Set deadlines for faculty to finalize and submit exam papers. This ensures that exams are ready well in advance and allows for any necessary reviews or adjustments. Plan for the logistics of exam administration, including the distribution and collection

2.6 – Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

For maintenance of equipment and computer-related complaints, a wellestablished system is present. All the complaints from various departments are resolved through a process. To look after the resolution of complaints, the maintenance committee was formed, which includes representatives from all departments and teaching representatives. The committee ensures proper maintenance of physical property and facilities on campus, ordinary preventive maintenance, long-range plans for repairs and replacement of equipment, and regular reviews of the conditions of infrastructure and other facilities. Maintenance complaints are forwarded by users to the Head of the department and, through the principal, to the Administrative officer. The Administrative officer forwards the complaints to the respective departments based on the nature and type of department. Respective departments assess the complaints and resolve them at the local level, or if they are not reparable, they are forwarded to agencies outside. For electrotherapy equipment, a yearly AMC is signed with a private agency that looks after maintenance of that equipment. For sending the complaints, printed complaints books are used so that details

of repair and maintenance can be maintained. If the repair, maintenance, or construction cost exceeds Rs. 3000 and is less than Rs. 1,00,000 (one lac), then, with the recommendation of the chairman for approval. If equipment or an instrument is under warranty or has an AMC or CMC, then maintenance work will be done by giving a service call to the agency. If out of warranty / Guaranty or no AMC / CMC then department will ensure the budget provision from accounts department for the said maintenance work. Utilizing physical, academic, and support facilities: Laboratories are set as per the guidelines and requirements of the affiliating university. For the utilization of laboratories, the time

tables are set such that there is no overlapping of practical or demonstrations. The schedule of laboratory usage is displayed at the entrance of each lab. Students should wear their aprons compulsorily and have their own clinical examination kit (hammer, goniometer, inch tape, stethoscope, etc. Students are instructed to follow the ethical rules of Standard Operating Procedure format (SOP) before the handling of any electrotherapy modality. For the utilization of equipment in the laboratory, the log books are maintained for the issue and return of the equipment. The library, which is very well ventilated and illuminated even in case of power cuts. The book reading section is separated from the journal reading section and the newspaper reading section. The sports complex is designed keeping in mind the national and international competition for students. Students and staff utilize this facility for competitions and training. Computers with high-speed broad-band internet facilities are available to the faculty members in their staff rooms to prepare computer-aided teaching materials. E-content is utilized by each student and faculty to get study materials from E-books, E-journals, and DELNET. The college has set up four smart classrooms with 100 capacities and two class rooms with 20 capacities. and is in the process of converting every class room to a smart class room.

5.3.2 – Activity of Student Council & amp; representation of students on academic & amp; administrative bodies/committees of the institution (maximum 500 words)

Student council is a framework of a group of elected and volunteer students working together with an advisor with the students affairs and activities to express their leadership quality. This student council provide an opportunity to students to develop their leaderships by organizing several activities and service projects and is to promote student welfare and support the educational process to advance the students academic and personal abilities. It also looks after the welfare of students with support of management and faculty members and avoid the obstruction that may come in the path of a students learning process. Student council are active with two students representative from under graduate and two from post graduate every academic year with additional members for other committees as academic, sports, cultural, audio, compering, etc... Students representatives and other committee members are introduce by the Principal to all the students and facuilties. This committee involves the council students in all program as seminar, workshop and projects activities to exhibit their knowledge, personality and leadership. This committee complies with the policies set by the college in order to facilitate a positive academic environment to the students and help them to proceed in their career without difficulty. The committee regularly gets together to explore ways of improving the student experience at our campus arid to address any difficulties faced by students. Meetings are also organized with student representatives to collect student feedback and take corrective measures.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

Nandha Physiotherapy Alumini association is registered under the Tamilnadu socities registration act, 1975. It was registered in the year 2014. The association is registered in the title as Nandha College of Physiotherapy Alumini Association, koorapalayam, perunduari road, erode. Our institute aluminis are working in abroard, multispeciality hospitals, academian and some have their own clinic. The Institute has a registered Alumni Association for building strong bond between alumni and present student's. The alumni give support to the student's through interaction, financial funding, guidance and placement. The mission of the alumni association is to foster a mutually beneficial relationship between the Institute and its alumni. Objectives of the Alumni association: • To encourage and promote close relations between the Institution and its alumni and among the alumni themselves • To promote and encourage friendly relations between all members of the alumni body, an interest in the affairs and well-being of the Institution. • To initiate and develop programs for the benefit of the alumni. • To provide and disseminate information regarding their Alma Matter, its graduates, Faculties and student's, to the alumni. • To assist and supporting the efforts of the Institution in obtaining funds for development To serve as a forum through which alumni may support and advance the pursuit of academic excellence at the institutions

5.4.2 – No. of enrolled Alumni:

901

5.4.3 – Alumni contribution during the year (in Rupees) :

45000

5.4.4 - Meetings/activities organized by Alumni Association :

Summer Internship Opportunities Entrepreneurship Awareness Promoting Institute Events Alumni interaction

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Decentralization The organizational structure of the college involves leadership at several levels. Decentralization has been highly effective in taking decisions and implementing them. Both the top down and the bottom up approach are used to initiate new plans/suggestions. The institute promotes decentralization in academic and co-curricular activities involving staff members and students. Participatory Management Participatory management approach is practiced at different levels in the college and stakeholders are involved in the process of decision making based on shared insight. This approach is particularly implemented to experience the benefit of participatory management. Participative management involving staff and students The Governing Council of the College has two faculty representatives with the Principal as Ex- officio member. At the institutional and department levels, frequent meetings are conducted involving faculty members, Head of the departments and office bearers of various committees for effective implementation of policies and plans. Various Committees: Examination Cell: Responsible for conducting the internal Assessment test in an efficient and effective manner. Discipline/ Dress code: The discipline committee ensures that the college discipline followed by the all the students in the college. Anti Ragging: The committee ensures that the campus is free from ragging. The flying squad of the committee visits the various locations of the college campus and hostels to ensure that the campus is ragging free. Research Development Cell: The committee consists

of coordinators from all the departments headed by a senior faculty member lays down the guidelines for final year PG students projects. Web/ Publicity: the committee takes the responsibility of giving news articles to newspapers for various programs conducted in the college. Training Placement Cell: The committee working under training placement department has faculty and student members from various departments. Cultural: The committee takes the responsibility of organizing various cultural activities and competitions on different occasions. Sports Recreation: the committee organizes number of sports meets. The committee encourages and facilitates the students to take part in sports activities organized at the college, University, state and national levels. Alumni Cell: The cell has built a network of alumni. It organizes guest lecturers and invited talks from illustrious alumnae. Ecosystem: the cell ensures that the college adopts various green initiatives such as energy water conservation, waste management and green landscaping. Counselling Career Guidance: the objectives of the cell include improvement of teacher student relationship, counselling students for solving their personal problems and promote confidence to improve their quality life. Internal Quality Assurance (IQAC): IQAC prepares annual plan regarding the efforts towards quality enhancement. Student council: The council consists of class representatives as members from all the years both UG and PG.

6.1.2 – Does the institution have a Management Information System (MIS)?

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Yes

| Strategy Type | Details |
|----------------------------|--|
| Curriculum Development | The college IQAC CELL suggest curriculum and give suggestions to Board of studies for curriculum development .IQAC insures planned educational development. Management actively collect a feedback from students and take a necessary action on feedback |
| Teaching and Learning | ? Teaching and Learning Regular classes are conducted in college and students are motivated for better academic performance. Under the guidance of IQAC, every department is promoting quality enhancement activities in academic through seminars, workshops, on different subjects. Practical are done as per guidelines of The TN Dr. MGR Medical University. |
| Examination and Evaluation | College has its systematic procedure for conducting examination. Examination Cell of the College conducts meeting prior to the university examination for fair examination. Examination cell takes necessary steps to reduce malpractices. |
| Research and Development | College has well planned research centre where students and faculties are |

| | encouraged to do research. Research and development cell is formed for functioning of research work in college. |
|---|--|
| Library, ICT and Physical Infrastructure / Instrumentation | College has rich library where reference books, journals, newspapers are available in plenty. The college library has computer with internet connection which helps teachers and students to enhance their knowledge and they can add more feathers in the cap of their research works and specific knowledge about various subjects. Records of library are maintained systematically. |
| Human Resource Management | Meetings are held with the staff to discuss allotment of duties and their feedback is taken time to time to redressed the grievances of staff effectively. The faculty and staff members are entitled to get all kinds of leave as per the norms of University and Government made in this respect. |
| Industry Interaction / Collaboration | <pre>? Industry Interaction / Collaboration The college is trying to level best to enhance industry institute interaction activities like industrial visits, guest lectures for the professional development of students and faculties.</pre> |
| Admission of Students | The admission processes of the students are followed as per the rules and regulations of Higher Education department. Admission committee is formed for the smooth functioning of student's admissions at UG PG level. Proper guidance is given to the students for their admission documents are verified by the admission committee. College administration ensures free and fair admission process and also take care of students facilities regarding admission. |

| E-governace area | Details | | | | |
|--------------------------|--|--|--|--|--|
| Planning and Development | Process of planning college events and activities, institute uses personal e-mails. Important notices and reports are also circulated via e-mails. E - governance is the integration of information and communication technology in all the working processes of the system. It aims to minimize the manual efforts and improve the communication, create transparent | | | | |

| | system and to be cost and time effective. |
|-------------------------------|---|
| Administration | The college has biometric attendance for teaching and non teaching staff. The college campus is equipped with CCTV cameras installed in various places of need. ICT has been introduced in the administrative work. College staff uses smart phone with inbuilt social app like Gmail to communicate. Whatsapp group helps to provide the brief notices of any event to be happened on college. Whatsapp groups are also used for awareness and of smooth functioning of the same. |
| Finance and Accounts | ? Finance and Accounts This helps keeping records of receipt of fees, funds, projects, donations, staff salary and all types of purchase and payments of various transactions. Also being used to maintain quarterly, annual accounts and also to prepare reports for internal audit. |
| Student Admission and Support | Students register their names online for the admission purpose. The admissions are confirmed only through online e-governance. The data collected through this process is further used for all necessary requirements such as student scholarships, to generate subject wise lists of the students, Transfer Certificate, Migration certificate, Bonafide certificate, fee receipts, Identity cards, etc. The related information to student admission and support such as Admission notifications, Admission schedule, Available subjects, Student Scholarships, examination circulars, Academic Calendars, Teaching plan, Time Table, curricular and extracurricular activities, upcoming events, reports of activities are available on the college website. The website is maintained and updated regularly by website in-charge. The details of various activities are connected with the website of the college, such as admission notification, timetable, academic calendar, examination results syllabus, upcoming events, reports of various activities and department profile. The feedback of curriculum is collected from various stakeholders such as |

| | <pre>students, teachers, employers, alumni and parents through website only. The tab for outgoing students is available for giving the overall feedback on the college. The structured questionnaire for the student satisfaction survey is also available on website through which student can communicate their opinion on overall functioning of the college. The teaching plan and some links for the video lecturers are also available on the website. The college facebook page, Instagram page, Youtube Live, Whatsapp is also very helpful to reach students, parents and community. E -governance also implemented in library services to make it student friendly. Number of e-resources is available in the library. There is a library supervision committee which has been taken appropriate decision to enrich the library and make it student friendly such as, availability of DELNET and other resources, providing integrated library management, providing special library and E- resources.</pre> |
|-------------|--|
| Examination | The exam timetable, collection of question papers, student attendance is also operated by using e-governance. Semester examinations are conducted by the university. It is useful for students examination application forms, payment of examination fees, examination management and execution, results analysis are done. |

6.3 – Faculty Empowerment Strategies

6.3.1 – Teachers provided with financial support to attend conferences / workshops and towards membership fee of professional bodies during the year

medical science and improves outcomes for individuals and populations. Additionally, it promotes transparency and accountability within the healthcare system by advocating for the use of evidence to guide policies and resource allocation. Ultimately, the overarching goal is to optimize patient care by ensuring that interventions are both scientifically sound and tailored to individual patient needs and preferences. The Context: In the realm of physiotherapy, evidence-based practice and research are pivotal for delivering optimal patient care and advancing the profession. Physiotherapy, as a discipline, emphasizes the use of evidence to guide clinical decision-making and interventions aimed at restoring function, alleviating pain, and improving quality of life for patients across various conditions and settings. By grounding practice in the best available evidence from research, physiotherapists can ensure the effectiveness and safety of their treatments while tailoring them to individual patient needs. This approach not only enhances the credibility and professionalism of physiotherapy but also fosters a culture of continuous learning and improvement within the field. Furthermore, research in physiotherapy plays a crucial role in expanding the evidence base, identifying innovative treatment approaches, and addressing unanswered questions or gaps in current knowledge. Ultimately, the integration of evidencebased practice and research in physiotherapy contributes to better patient outcomes, informed decision-making, and the overall advancement of the profession. The Practice: In the domain of evidence-based practice and research, physiotherapists adhere to a systematic approach that integrates the best available evidence from research, clinical expertise, and patient values and preferences. This involves critically appraising and applying research findings to inform clinical decision-making and treatment planning. Physiotherapists consistently evaluate the quality and relevance of research studies, considering factors such as study design, sample size, and statistical significance, to ensure the validity and applicability of the evidence to their practice. Moreover, they engage in ongoing professional development to stay abreast of advancements in research methodologies and evidence-based interventions. By incorporating evidence-based practice into their daily routines, physiotherapists uphold the highest standards of patient care, continually striving to optimize outcomes and promote patient well-being. Through a commitment to evidence-based practice and research, physiotherapists contribute to the advancement of the profession and the enhancement of healthcare delivery .. Evidence of success Evidence of success for evidencebased practice and research in physiotherapy is multifaceted. Firstly, improved patient outcomes serve as a tangible indicator of success, with interventions informed by robust evidence demonstrating enhanced effectiveness in alleviating pain, restoring function, and improving overall quality of life for patients. Reduced healthcare costs and resource utilization further signify success, as evidence-based practice minimizes unnecessary interventions and promotes efficient use of healthcare resources. Additionally, increased professional credibility and recognition within the healthcare community reflect the impact of evidence-based practice, as physiotherapists are regarded as informed, competent practitioners who prioritize patient well-being. Moreover, the continual expansion and refinement of the evidence base through research contribute to the evolution and advancement of physiotherapy as a profession, ensuring that practice remains current, effective, and aligned with the latest scientific knowledge. Overall, the integration of evidence-based practice and research results in tangible benefits for both patients and the profession, affirming its success and importance in physiotherapy. BEST PRACTICE II Promotion of scientific temperature Title Promotion of scientific temper among the staff and the students. Objectives: The objectives for promoting scientific temper among 100 to 200 students are to cultivate a culture of critical thinking, curiosity, and evidence-based reasoning. Firstly, the aim is to encourage students to question, analyze, and evaluate information using

scientific methods, fostering a mindset of inquiry and skepticism. Secondly, the objective is to instill a deep appreciation for the scientific method, emphasizing its role in uncovering truths about the natural world and addressing societal challenges. Thirdly, the goal involves providing opportunities for hands-on experimentation and exploration, allowing students to develop practical skills and a deeper understanding of scientific principles. Additionally, the objective includes promoting collaboration and communication skills, enabling students to engage in meaningful discourse and exchange ideas within the scientific community. Ultimately, the overarching objective is to empower students to become lifelong learners and critical thinkers who apply scientific reasoning to make informed decisions and contribute positively to society. The Context: Promoting scientific temper among staff and students entails fostering an environment where curiosity, critical thinking, and evidence-based reasoning are valued and encouraged. This context emphasizes the importance of integrating scientific principles into teaching methodologies, curriculum development, and everyday practices within educational institutions. By promoting scientific temper, institutions aim to instill a mindset of inquiry, scepticism, and openness to new ideas among both staff and students. This involves providing opportunities for hands-on learning, engaging in research activities, and facilitating discussions on contemporary scientific issues. Moreover, promoting scientific temper fosters a culture of collaboration and interdisciplinary learning, where staff and students from diverse backgrounds come together to explore and address complex challenges using scientific methods. Ultimately, the context of promoting scientific temper among staff and students serves to nurture a community of lifelong learners who are equipped with the skills and knowledge to critically evaluate information, solve problems, and contribute to scientific advancement and societal development. The practice: The practice for promoting scientific temper among students and staff involves integrating inquiry-based learning, critical thinking exercises, and evidence-based discussions into the educational framework. This includes designing curriculum that encourages handson experimentation, problem-solving, and exploration of scientific concepts. Staff members serve as role models by demonstrating curiosity, skepticism, and a commitment to evidence-based reasoning in their teaching and research activities. Additionally, fostering a culture of open dialogue and collaboration allows students and staff to engage in constructive discourse, share ideas, and challenge misconceptions. Providing access to resources such as laboratories, research opportunities, and scientific literature further reinforces the practice of promoting scientific temper. Through these efforts, students and staff develop the skills, attitudes, and knowledge necessary to approach problems with a scientific mindset, make informed decisions, and contribute meaningfully to the advancement of knowledge and society.. Evidence of success: Evidence of success for promoting scientific temper among students and staff can be observed through various indicators. Firstly, increased engagement and enthusiasm in scientific inquiry and learning activities signify success, with students demonstrating a heightened curiosity and eagerness to explore scientific concepts. Secondly, improved critical thinking skills and the ability to evaluate information using scientific methods serve as tangible evidence of success, as both students and staff demonstrate a greater capacity for discerning facts from misconceptions. Additionally, enhanced collaboration and interdisciplinary interactions among students and staff reflect the cultivation of a scientific community where ideas are exchanged, challenged, and refined. Moreover, the application of scientific principles and evidencebased reasoning in problem-solving and decision-making processes indicates success, as individuals demonstrate a deeper understanding of scientific concepts and their real-world applications. Ultimately, the sustained integration of scientific temper into the educational environment leads to a culture of lifelong learning, innovation, and contribution to scientific

advancement and societal progress. Problem encountered: One common problem encountered in promoting scientific temper among students and staff is the prevalence of entrenched beliefs or misconceptions that may resist scientific reasoning. Some individuals may hold onto preconceived notions or ideologies that contradict established scientific principles, making it challenging to encourage open-mindedness and critical thinking. Additionally, limited access to resources, such as laboratory facilities or up-to-date scientific literature, can hinder the practical application of scientific inquiry and experimentation. Moreover, the pressure to conform to standardized testing or curriculum requirements may prioritize rote memorization over deep understanding and critical analysis, undermining efforts to foster a genuine appreciation for scientific inquiry. Furthermore, the complexity of scientific concepts and terminology can pose barriers to engagement and comprehension, particularly for individuals with diverse educational backgrounds or limited exposure to science. Addressing these challenges requires dedicated efforts to promote a culture of curiosity, skepticism, and evidence-based reasoning through targeted educational interventions, resource allocation, and support for professional development among students and staff.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Distinctiveness of our college is also reflected in its academic programs and offerings. From specialized majors to interdisciplinary courses, the curriculum is designed to cater to the intellectual curiosity of the students. The emphasis on research, practical experiences, and global perspectives may contribute to setting your college apart in the realm of academia. The integration of cutting-edge technology, Hospital partnerships, or a focus on sustainability might be defining features that distinguish the educational experience. Beyond academics, the campus environment and student life play a pivotal role in defining the distinctiveness of our college. Is it a close-knit community where collaboration thrives, or does it foster individuality and independence The extracurricular activities, clubs, and organizations on campus contribute to the vibrant tapestry of student life. These elements create a unique social fabric that shapes the overall college experience and leaves a lasting impact on the personal and professional development of students. Moreover, the faculty and staff contribute significantly to the distinctiveness of our college. The expertise, passion, and mentorship they bring to the table enrich the learning environment. Faculty research, publications, and Hospital connections contribute not only to the academic reputation of the institution but also expose students to real-world applications of their knowledge. In embracing diversity and fostering an inclusive environment, our college distinguish itself as a hub for global perspectives and cultural exchange. This cultural richness enhances the educational experience, preparing students to navigate an interconnected world with sensitivity and open-mindedness. In conclusion, the distinctiveness of our college is a multifaceted tapestry woven from its history, values, academic programs, campus culture, and the contributions of its community. Its a unique blend of tradition and innovation, shaping not only the educational journey of its students but also leaving an indelible mark on the larger landscape of higher education. Understanding and celebrating these distinctive elements are crucial for both current and prospective members of the college community, fostering a sense of pride and
